Length Overall	8,25 M
Hull Length	7,90 M
Beam	2,70 M
Draft - Hull	0,45 M
Light Displacement	2375 KG
Fuel Capacity	340 L
Fresh Water Capacity	80 L*
Black Water Capacity	30 L*
Minimum Engine	200 HP
Maximum Engine	500 HP
Top Speed Range	32 - 50 Knot
Cabins	1
Berth	2
Max People On Board	6 / 9
Design Category	CE CAT. B/C
Hull	Twin Stepped Deep-V
Hull Design	Adam Younger Design
Design By	Epikworks & Dromeas Design Studio
Engineering By	Gurit & Dromeas Engineering

DESIGN BOATS SWITZERLAND TENDER08-E

Designboats Switzerland has many years of experience in the development and construction of high-quality performance and customised boats, from 6m jet boats to luxurious megayacht tenders. The latest addition is the Tender08-e, a superlative all-electric boat. The new 'Cabin Version'

is based on the successful open tender variant and complements the (electric) range with a high-quality dayboat version with comprehensive functionality and high comfort features. The result is a dayboat with exhilarating performance, elegant design and high customisability, paired with the comfort, luxury and safety for carefree hours of cruising www.designboats.ch

SPECIFICATIONS (electric version)

- Length** 8.0 m
- Beam** 2.50 m
- Draft** 0.60 m
- Weight** 1850 kg
- Top speed** 25 knots
- Battery Capacity** 80 kWh

DOMANI E32

A zero emission chase boat for exclusive sailing sensations. With the launch of the new E32 chase boat DOMANI creates a new yachting experience for conscious owners. Different by the distinct design, digitally developed and driven technology. Fully electric, with the highest efficiency possible. Every DOMANI is made to order, reflecting her owner's personality, usage preference and range aspiration; skillfully built, personally selected. Driven by a desire for freedom and distinguished by progressive design – DOMANI is about sailing Gran Turismo style; fast, fun and luxurious. A timeless elegance worthy of admiring looks from the quay. www.domaniyachts.com

SPECIFICATIONS

- Length** 9.50 m
- Beam** 2.70 m
- Weight** 2000 kg
- Engines** 50 kW High Voltage Direct drive
- Speed** 28 km/h
- Classification** 8 persons
- Range** 65 nm/8 hours

DROMEAS D28 WA

Dromeas is a growing force with its own design and engineering team, developing light weight sandwich epoxy glass high tech power boat production. Part of the boat building journey at Dromeas means that they study and dissect every part of the build, and meticulously search to further enhance their R&D. With unique and advanced technology methods they focus on vacuum infused sandwich epoxy-glass composites production. They pride themselves on using epoxy glass and non-wood production in structural construction, which in turn gives you the best and long-lasting hulls. www.dromeasyachts.com

SPECIFICATIONS

- Length** 8.35 m
- Beam** 2.60 m
- Draft** 0.45 m
- Light displacement** 2375 kg
- Max engine** 400 hp
- Top speed** 50 knots
- Capacity** 7 - 9 pax
- Category** B / C

DUTCH CRAFT DC25

DutchCraft explored the opportunities and the challenges involved in the evolution from combustion engines to hybrids or fully-electric drivetrains. This transition led to a new approach to the design of a (superyacht) tender. The low and compact drivetrain frees up a ton of deck space, which DutchCraft optimised by implementing a modular deck system for a wide variety of purposes. The key features of the DutchCraft 25 are the robust and practical design, capacity, flexible layout, range, ease of use and a proprietary hinged bow door. The bow door allows guests to walk directly on the beach via the foredeck. www.dutchcraft.com

SPECIFICATIONS

- Length** 8.04 m
- Draft** 0.82 m
- Beam** 2.38 m
- Continuous power** 100 kW
- Peak power** 135 kWh & 134 kWh
- Battery** 89 kWh - 12 kWh
- Range @ 32 knots** 75 minutes
- Range @ 6 knots** 6 hours

EDORADO 8S

The EDORADO 8S is a revolutionary powerboat. A fast electric drive train with fully retractable hydrofoils. A super silent and smooth ride above the water. Unique safety features and zero maintenance. 80km cruising range at 25 knots. Integrated swim platform. Premium interior with 8 speaker sound system and digital dashboard. www.edoradomarine.com

SPECIFICATIONS

- Length** 8.00 m
- Beam** 2.50 m
- Max. weight** 1650 kg
- Engines** Twin drive 50 kW each
- Top speed** 40 knots
- Hull material** Vacuum infused polyester with foam core
- Fuel** Full electric

ENATA MARINE

Delivering a smooth and exhilarating ride for passengers, the FOILER offers a comfortable, high-performance driving experience. Its retractable carbon fibre hydrofoils deliver strength, rigidity and lightness, allowing the yacht to fly 1.5m above the water for the most exciting yachting experience imaginable, even while delivering up to 20% increased fuel efficiency at top hydro-foiling speeds. www.enata.com

SPECIFICATIONS

- Length** 9.45 m
- Beam** 3.30 m
- Stowage height** 2.3 m
- Propulsion** Diesel Electric
- Engines** 2 x Diesel 320hp each, 2 x electric generators, 2 x Electric torpedoes
- Top speed** 40 knots
- Foiling** Above 18 knots

EVO YACHTS EVO R6

The idea of EVO Yachts was born in 2014 from a fortunate encounter between Blu Emme Yachts and the Neapolitan yacht designer Valerio Rivellini. Both were animated by a simple goal: finding the perfect balance between sleek and functional. In one word, unexpected. It took EVO only a few years to become one of the most anticipated brands at boat shows, a yachting firm that perfectly combines nautical engineering and smart design. www.evoyachts.com

SPECIFICATIONS

- Length** 18 m
- Beam** 7.3 m
- Propulsion** Volvo Penta IPS 800/950
- Max speed** 35 knots
- Capacity** 16 pax
- Fuel capacity** 2100 litres
- Capacity** 3 cabins
- Autonomy** 280 nm
